

How Book Quizzes Work in myON

Most books in myON have a comprehensive book quiz after the student has completed reading the book. The book quiz will have 5 questions.

If the book has a quiz, the student will be prompted to take it after they are done rating and/or reviewing the book.

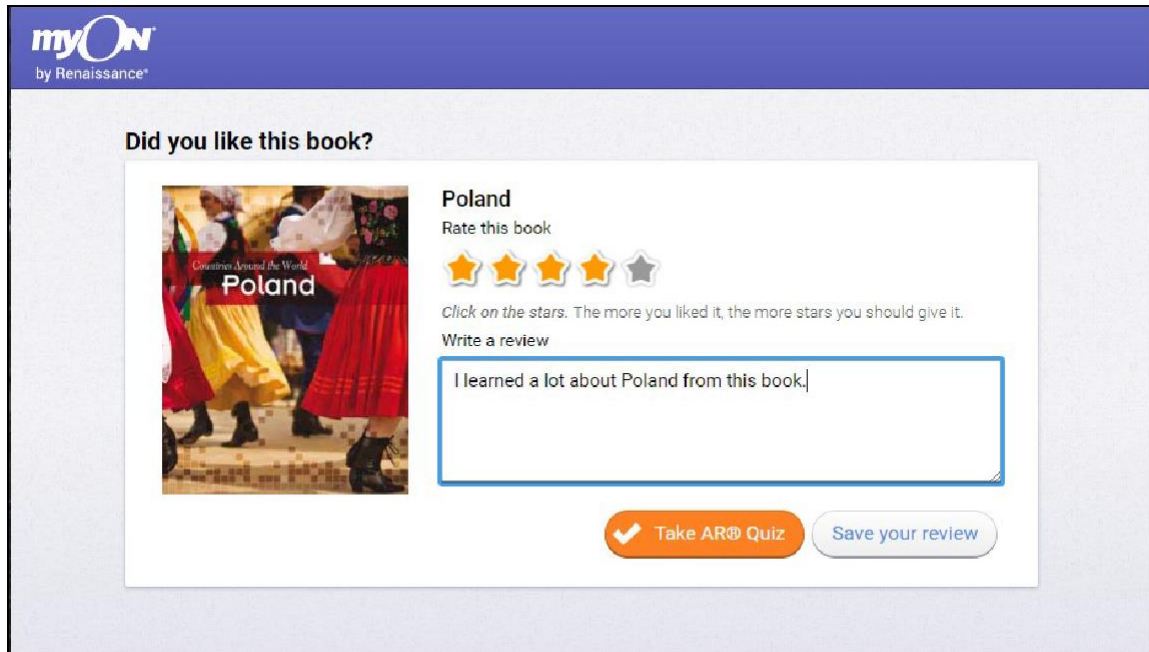

For the student to be presented with the quiz, they need to click **I finished this book!** after reading the last page.

Note: Students can't complete the book until they have 100% pages read and 100% time spent reading.

After clicking “I finished this book!”:

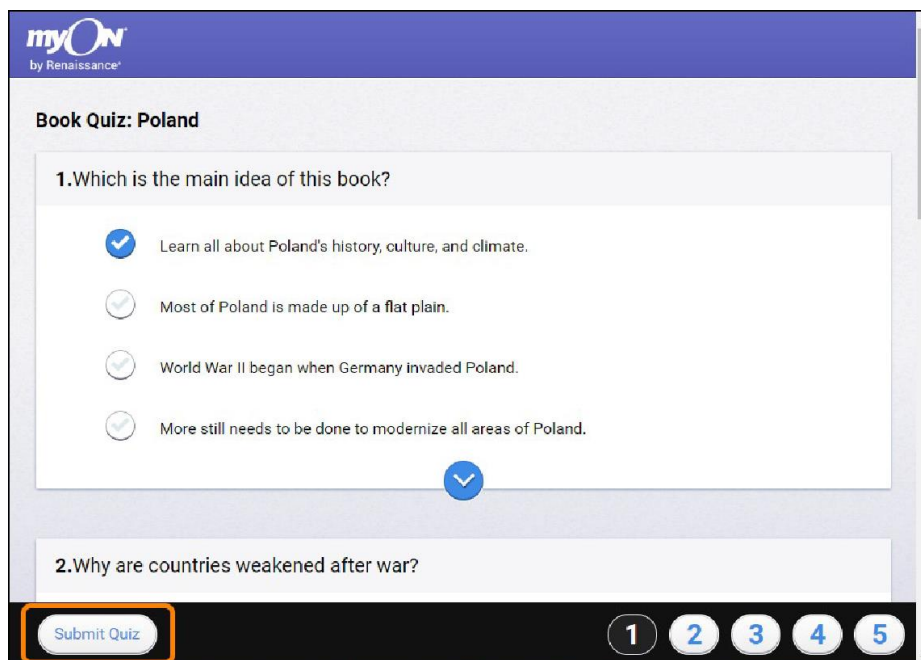

Students will be immediately prompted to rate the book (and to review it if the school has that functionality enabled). **Click Save Your Review to finish.**

The screenshot shows the myON by Renaissance interface for reviewing the book "Poland". The page title is "Did you like this book?". On the left is a book cover for "Poland" from the "Countries Around the World" series, featuring a group of people in traditional Polish folk costumes. To the right of the cover, the title "Poland" is displayed, followed by "Rate this book" and a five-star rating system. The first four stars are filled with yellow, and the fifth is a grey outline. Below the stars is the text "Click on the stars. The more you liked it, the more stars you should give it." Underneath is a text box labeled "Write a review" containing the text "I learned a lot about Poland from this book.". At the bottom right of the review area are two buttons: "Take AR Quiz" (orange) and "Save your review" (blue).

After finishing the book rating/review

Students will be prompted to take the book quiz. The quiz will display 5 questions, and the numbered circles will display which question the student is on. Once all questions are answered, students will be able to click **Submit Quiz**.

The screenshot shows the myON by Renaissance "Book Quiz: Poland" interface. The first question is "1. Which is the main idea of this book?". There are four radio button options: "Learn all about Poland's history, culture, and climate." (selected with a blue checkmark), "Most of Poland is made up of a flat plain.", "World War II began when Germany invaded Poland.", and "More still needs to be done to modernize all areas of Poland.". A blue checkmark icon is centered below the options. The second question is "2. Why are countries weakened after war?". At the bottom left is a "Submit Quiz" button with a blue border. At the bottom right is a progress indicator with five numbered circles (1-5), where circle 1 is highlighted.

After A Student Finishes A Quiz

The system will grade it, and the student will be able to see which answers were correct or incorrect. The correct ones will be highlighted green; an incorrect answer will be highlighted red.

Students select **Return** when they are done.

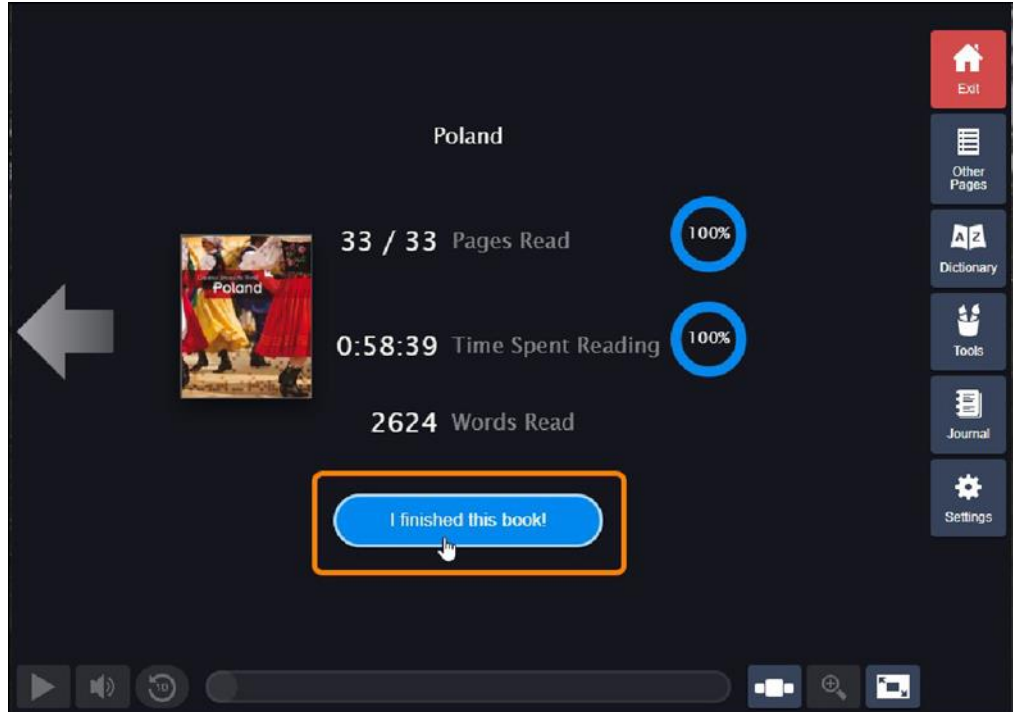

The screenshot displays a quiz interface. At the top, a question is partially visible with three radio button options: "Very few Polish children attend preschool.", "All children are required by law to attend preschool.", and "About half of all Polish children attend preschool." Below this is a blue downward arrow. The main question is "5. Which has happened since the end of communism?". It has four radio button options: "People do not like to travel to Poland.", "Poland's economy has improved." (highlighted in green with "Correct Answer" text), "Poland's economy has gotten worse." (highlighted in red with "My Answer" text), and "Poland has fought with many countries." At the bottom, there is a "Return" button on the left and a progress bar on the right with five numbered buttons (1-5). Buttons 1, 2, 3, and 4 are green, while button 5 is red. An orange arrow points to the "Return" button, and another orange arrow points to button 4 in the progress bar.
